

# ANGUS YOUNG MEETS MOLLY MALONE

*Words & music: Lasse Forsberg*

Woke up from the dead with my TV on  
Didn't even know I'd been gone gone gone  
My favourite show was about to begin  
No time to wonder where I'd been  
The sky of blue, the sea of green  
I gotta stay glued to my TV screen

*When Angus Young Meets Molly Malone  
And the moon shines like a buckle  
In the black velvet sky*

Something made a hole in the park last night  
People started screaming - It's a satellite!  
My favourite show was about to begin  
No time to flock around the scene  
To have a look at that machine  
I gotta stay glued to my TV screen

*When Angus Young meets Molly Malone  
When he rocks upon her barrow  
It brings a tear to my eye*

He says I love you, girl  
She says I love you too  
He says I love you, girl  
She says I love you too  
He says I love you, girl  
She says I love you too  
He says I love you, girl  
(She says) I la la la la love U2
